

TEACHING WITH TECHNOLOGY

The world has sped up a lot and
education has not!

CLAUDIA CRUZ

Parents point of view

- Parent from Brooklyn: “ Can anything that seem so natural really be bad? ”
 - It is best for students to learn how to use computers at a school setting
 - Middle school that requires students to use laptops in class and for most of their homework.
 - English history teacher required students to blog, add links, and comments as homework.

New Jersey

- History teacher: “ If a student walks into a classroom with no technology it is like walking into the desert”.

-No more memorizing!!!!

-The world requires this new generation to do stuff, build stuff, and work on stuff that's what schools should be preparing them for.

New York South Bronx

- Principal: “Technology is like oxygen! ”
- Students should be fluent in technology excellent in communications, and become problem solvers.
- Less violence, attendance went up, and higher test scores.
- Yes, students get bored but they can multitask...kids know what is expected from the teachers and multitasking could be good.
